HOW DO WE HANDLE TEMPERATURES EXCEEDING 4000°F?

WE USE IRIDIUM.

ACDelco Professional spark plugs are made with iridium – one of the most corrosion-resistant metals on the planet. The use of iridium not only makes them the most durable plugs available, it also offers enhanced engine idle stability, smoother performance, and better fuel economy.

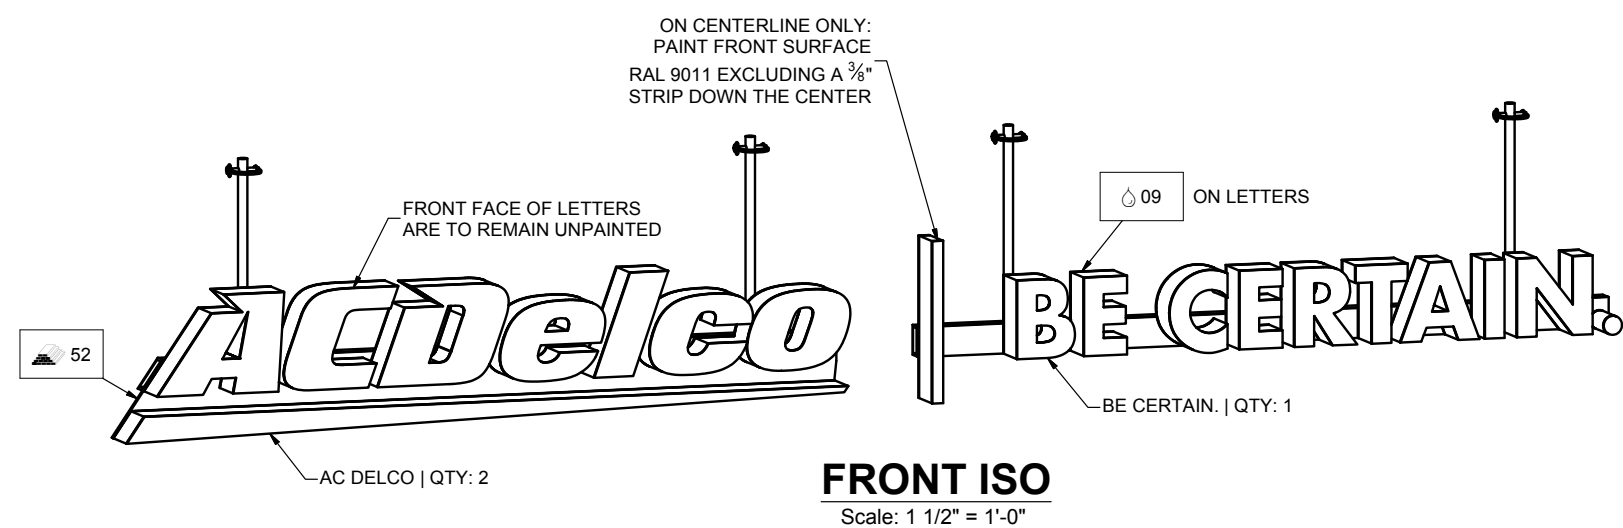

HOW DO WE HANDLE TEMPERATURES EXCEEDING 4000 F?

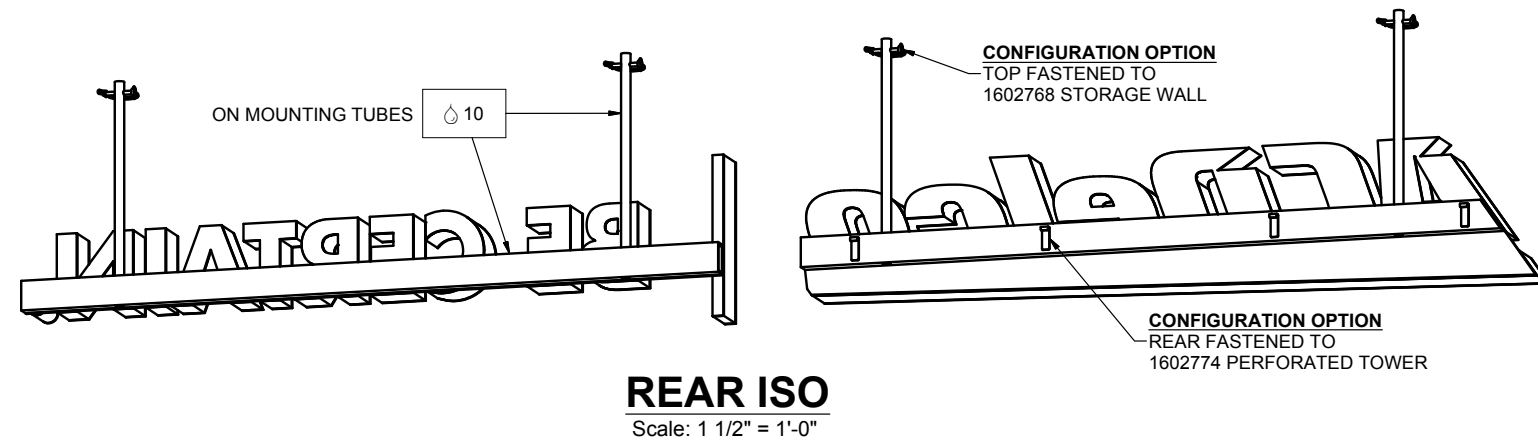

WE USE IRIDIUM.

ACDelco Professional spark plugs are made from a special alloy that can withstand the most demanding conditions. The result is longer life, better performance, and better fuel economy. Iridium - one of the most advanced materials in the world - not only makes enhanced engine life possible, it also provides superior performance, and better fuel economy.
